

# Tammy Isaacs

---

## EnviroSafe

Risk Management Specialist

### Professional Background

Ms. Isaacs has nearly 17 years of work experience in Environmental Health and Safety management, programs, development and implementation. Her experience in the private sector gives her valuable insight into the needs and outcomes that should be expected from a safety program. Ms. Isaacs sat as a member of the Carolina Star Board and Team lead for the Northeast sector. She is intimately familiar with OSHA regulations and stays current with the safety requirements needed to ensure a safe working environment with an emphasis on compliance. Ms. Isaacs is also an CPR/ First Aid Instructor of 15 years. She holds both Red Cross and American Heart Association Certifications. She is experienced the permitting process required for a multitude of industrial processes, and the subsequent recordkeeping that is necessary for compliance. Ms. Isaacs's experience in developing and leading safety programs in the private sector guides her management of the vast majority of EnviroSafe's safety retainer programs.
